### **DETAILED ACTION**

1. Receipt is acknowledged of the Amendment filed November 11, 2003.

#### ***Allowable Subject Matter***

2. Claims 1-9, 11, and 14-21 are allowable over the prior art of record.

The following is an examiner's statement of reasons for allowance: Although, Phelan (US PAT No. 3,771,075) teaches a coupling arrangement with a slot, and Williams (US PAT No. 6,133,795) teaches converting IF signal to a digital signal using an IF amplifier and ADC, one of ordinary skill in the art would not have been motivated to modify the teachings of Phelan and/or Williams to further include, among other things, the specifics of generating a binary digital signal from the transient voltage pulse received on the transmission line, as set forth in the claims

Accordingly, one of ordinary skill in the art would not have been motivated to modify the teachings of Phelan or/and Williams to meet the claimed limitation as set forth in the present claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
